Quality Control Technician

Location: Oconto, WI
Date posted: October 16, 2017
Start date: As soon as possible
Reports to: Quality Manager
Schedule: Full-time | 7:00AM to 3:30PM | Monday through Friday
Comp | Benefits: Based on experience | Health, Life, Dental, Vacation, Paid Holidays, 401k

POSITION DESCRIPTION

This is a leadership role which supports the efficient flow of operations and the release of parts that are of the highest possible quality. A hands-on tech position responsible for measuring custom thermoformed plastic parts to specifications, tracking parts across departments, and producing inspection reports. The position directly supports the Quality Manager and works closely with Supervisors, Setup Technicians, and Operators to help ensure parts align with customer blueprint specifications.

RESPONSIBILITIES

- Manage quality as parts develop and are completed, start to finish.
- Track and measure parts in shop area and lab.
- Use hand measuring tools to verify dimensions according to blueprint specifications.
- Communicate issues to responsible parties to help resolve out of spec dimensions.
- Complete acceptance inspections.
- Complete PPAP reports and FAI documentation.
- Assist in monitoring Operator quality checks across departments.
- Maintain a safe work environment according to guidelines and standards.

PREFERRED QUALIFICATIONS

- Previous role in quality control of manufactured parts, or as a quality-responsible setup tech or operator.
- MUST be thoroughly comfortable reading and interpreting mechanical blueprints.
- MUST be thoroughly comfortable with hand measuring tools: calipers, micrometers, height gauges, etc.
- Knowledge of MSWD and ISO is a plus.
- Familiarity with a coordinate measure machine (CMM) is a plus.
- CAD or CNC programming experience is a plus.

PREFERRED ATTRIBUTES

- Ambitious and career-oriented, driven to grow long-term with the company.
 - Effective leader. Flexible, team-player with polished communication skills.
 - Daily self-starter. Ability to perform under pressure and thrive in a fast-paced environment.
 - Ability to prioritize daily tasks. Detail and process-oriented.
-

ABOUT LETOURNEAU PLASTICS, INC.

LeTourneau Plastics, Inc. has been a pioneer in custom vacuum thermoforming of plastic components for nearly 50 years. Using virtually 80% recycled material, the company specializes in producing and assembling high quality cosmetic parts for a wide variety of industries within the United States and internationally; transportation, aviation, agriculture, food service, lawn and garden, recreation, health care, marine, etc. The company also assists in the design of parts to reduce tooling expense and minimize cost for customers. The 115,000-sq.ft. facility in Oconto, Wisconsin includes two manufacturing plants, warehousing, office space, pattern and tooling shop with six milling machines, 14 forming machines, two 3-axis CNC routers, and nine 5-axis CNC routers. As a third-generation-owned company, success and consistent growth has developed from a commitment to building enduring relationships with customers and surrounding communities.
