Quality Control Technician

Location: Oconto, WI
Start date: As soon as possible
Reports to: Quality Manager
Schedule: Full-time | 7:00AM to 3:30PM | Monday through Friday
Comp | Benefits: Based on experience | Health, Life, Dental, Vacation, Paid Holidays, 401(k)

POSITION DESCRIPTION

This is a leadership role which supports the efficient flow of operations and the release of parts that are of the highest possible quality. A hands-on tech position responsible for measuring custom thermoformed plastic parts to specifications, tracking parts across departments, and producing inspection reports. The position directly supports the Quality Manager and works closely with Supervisors, Setup Technicians, and Operators to help ensure parts align with customer blueprint specifications.

RESPONSIBILITIES

- Manage quality as parts develop and are completed, start to finish.
- Track and measure parts throughout plant floor and in Quality Lab.
- Use hand measuring tools to verify dimensions according to blueprint specifications.
- Work with responsible parties to resolve part issues.
- Complete acceptance inspections for incoming materials.
- Complete PPAP customer reports and FAI documentation.
- Assist in monitoring and enforcing Operator quality checks across departments.
- Maintain a safe and tidy work environment according to guidelines and standards.

PREFERRED QUALIFICATIONS

- Previous role in quality control of manufactured parts, or extensive experience as a quality-responsible technician.
- Must be thoroughly comfortable with GD&T and interpreting mechanical blueprints.
- Must be thoroughly comfortable with hand measuring tools: calipers, micrometers, height gauges, etc.
- Knowledge of MSWD and ISO is a plus.
- Familiarity with a coordinate measure machine (CMM) is a plus.
- CAD and CNC programming experience is a plus.
- Technical degree or trade program coursework is a plus.

PREFERRED ATTRIBUTES

- Ambitious and career-oriented, driven to grow long-term with the company.
- Effective leader. Flexible, team-player with polished communication skills.
- Daily self-starter. Ability to perform under pressure and thrive in a fast-paced environment.
- Ability to prioritize daily tasks and deadlines. Detail and process-oriented.

ABOUT LETOURNEAU PLASTICS, INC.

LeTourneau Plastics, Inc. has been a pioneer in custom vacuum thermoforming of plastic components for nearly 50 years. Using virtually 80% recycled material, the company specializes in producing and assembling high quality cosmetic parts for a wide variety of industries within the United States and internationally; transportation, aviation, agriculture, food service, lawn and garden, recreation, health care, marine, etc. The company also assists in the design of parts to reduce tooling expense and minimize cost for customers. The 115,000-sq.ft. facility in Oconto, Wisconsin includes two manufacturing plants, warehousing, office space, pattern and tooling shop with six milling centers, 14 forming machines, two 3-axis CNC routers, and nine 5-axis CNC routers. As a third-generation-owned company, success and consistent growth has developed from a commitment to building enduring relationships with customers and surrounding communities.
