Comp | Benefits: Based on experience | Health, Life, Dental, Vacation, Paid Holidays, 401(k), Monthly Profit Sharing

POSITION DESCRIPTION

This position works in a fast-paced manufacturing team environment to create custom plastic parts by setting up and operating various types of vacuum thermoforming machines.

RESPONSIBILITIES

- Apply work order instructions to machining.
- Set up forming machine settings according to specifications.
- Work closely with Supervisors and veteran operators to understand job requirements.
- Load and unload parts into position.
- Complete in-process visual quality checks throughout machining process to verify parts meet specifications.
- Perform minor mold repairs and coordinate larger repairs.
- Operate forklift and various hand tools.
- Multitask and maintain pace while managing multiple machines throughout each day.
- Use computer manufacturing software to log in/out of jobs, and document work onto hardcopy work orders.
- Work closely with Supervisors and Operators to efficiently react to schedule changes and troubleshoot issues.
- Maintain a safe work environment according to guidelines and standards.

PREFERRED QUALIFICATIONS

- Previous role in machining required.
- Ability to use simple mathematics: addition/subtraction, multiplication/division, fractions, and decimals.
- Technical degree or trade program coursework is a plus.

PREFERRED ATTRIBUTES

- Strong mechanical aptitude required.
- Able-bodied self-starter, comfortable working in a fast-paced mobile environment.
- Ability to work in an environment with high summer temperatures and humidity.
- Team player with positive, flexible attitude.
- Ability to prioritize daily tasks. Detail and process-oriented.
- Ability to troubleshoot, problem-solve, and utilize resources.
- Dedicated work ethic.

ABOUT LETOURNEAU PLASTICS, INC.

LeTourneau Plastics, Inc. has been a pioneer in custom vacuum thermoforming of plastic components for nearly 50 years. Using virtually 80% recycled material, the company specializes in producing and assembling high quality cosmetic parts for a wide variety of industries within the United States and internationally; transportation, aviation, agriculture, food service, lawn and garden, recreation, health care, marine, etc. The company also assists in the design of parts to reduce tooling expense and minimize cost for customers. The 140,000-sq.ft. facility in Oconto, Wisconsin includes two manufacturing plants, warehousing, office space, pattern and tooling shop with six vertical milling centers, 15 forming machines, two 3-axis CNC routers, and eight 5-axis CNC routers. As a third-generation-owned company, success and consistent growth has developed from a commitment to building enduring relationships with customers and surrounding communities.
